

1) Request For Deals - A Unique reference will be sent from our end as part of this API call, along with deal details (Amount, currency etc.)

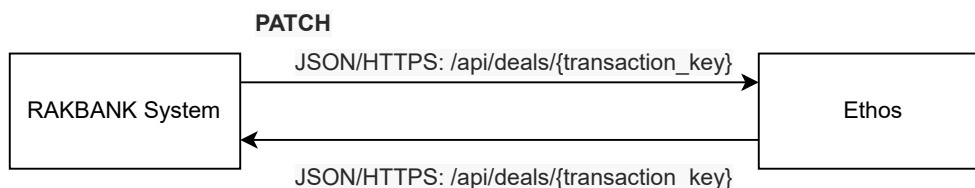

In Response Platform to provide us with `tran_original_key` or `transaction key` for our future reference

2) Confirm Purchase API - The reference from request Step 1 will be used to confirm Purchase

3) Confirm Sale API : confirm sale to Condor trade. Reference from Step1 will be flown to Ethos Platform

4) Delete the deal - Optional as per Bank's Process. But this can be triggered only after Step 1. If Deal is already booked or confirmed (Step 2 & Step 3) then deal cannot be cancelled/deleted.
